#### **BUSINESS CASE:**

The Human Resource function is the major driver of organizational performance. Every well meaning organization will make it their top priority, to engage this process of bridging their knowledge and skills gaps, so as to achieve a balance and adopt a unique competence that will enhance its people-related returns on investment.

There is therefore a need for Human Resource Practitioners to gain more theoretical base and to acquire practical hands-on experience on how to design, utilize HR tools and systems to achieve a collaborative implementation of Human Resource Strategies and objectives.

Our PCHRM course will help to translate acquired skills and knowledge into responsive HR Management actions and to tackle HR issues themselves with confidence. The course is career focused and industry relevant, and provides specialist teaching to ensure you are able to lead, train and motivate staff.

#### **BENEFITS OF THE PROGRAMME:**

- Industry recognised United Kingdom (UK) certificates highly sort after by employers and academic institutions for further studies as evidence of theoretical knowledge.
- Greater Knowledge of HR Best Practices.
- In-depth Understanding of the HR role.
- Exhibition of new HR competences.
- In-depth understanding of people management.
- Ability to perform effectively in roles across the private, public and not-for-profit sectors.

#### **BUSINESS OUTCOME:**

- Committed Workforce
- HR department or Unit fulfilling its role as a strategic business partner.
- Achieving organisational goals through effective employee engagement.

## **WHAT WILL I LEARN?**

- Understand the importance of HRM within organisations;
- Become aware of alternative approaches to the management of people within an organisation;
- Appreciate the technical competencies (knowledge and techniques) in the control and management of human resources;
- Recognize the importance of good employee relations;
- Understand the job brief design: analysis/specification/description/recruitment/selection methods/Job evaluation/Compensation & Benefit/Performance appraisal/ HR Planning/ Training and Development.

## **TEACHING AND ASSESSMENT:**

The course is taught by highly experienced facilitators together with case studies to enhance learning. Discussions, case studies and group work will allow delegates to get fully involved and understand the practical implications of the learnings. Informal assessment will take place through group discussion and class room activities as guided by your tutors.
